

Treoes Vale Solar Farm

Community Newsletter:
January 2024

Treoes Vale Solar Farm is a proposed renewable energy development comprising of the construction and operation of a ground mounted solar farm alongside associated infrastructure, with the capacity to generate up to 9.9MW of renewable energy. The proposed development is predominantly situated within the local authority area of the Vale of Glamorgan with part of the cable route (which is to be buried underground), connecting into the local distribution network, situated within the Bridgend local authority area.

Proposed site location plan

Project overview

The site consists of four development areas totalling approximately 41 acres (16.5 hectares), with the area within the red line boundary being circa 46.5 acres (19 hectares). The site is located approximately 2km southeast of Bridgend, 500m to the east of Treoes and 550m to the west of St Marys Hill. Temporary planning permission is sought for a period of 40 years.

The proposal would support the Welsh Government target of 100% of electricity consumption being generated from renewable energy by 2035, ending our reliance on fossil fuels such as coal, oil and natural gas and replacing these with new low carbon energy sources minimising future climate change and its impacts.

The project could produce enough renewable electricity for up to 2,600 homes each year and offset over 3,800 tonnes of CO₂ per year.*

Pre-application consultation

We are commencing pre-application consultation prior to submitting a planning application to Vale of Glamorgan Council and Bridgend County Borough Council who will make the decision on whether to grant planning permission.

We would like to invite you to attend a drop in public exhibition to discuss the proposal at Treoes Community Hall, Nant Canna, Treoes, CF35 5DE on **29 January 2024** from 1pm until 7pm.

If you would like to attend, please register your interest at info@treoesvalesolarfarm.co.uk

Alternatively, the project website www.treoesvalesolarfarm.co.uk provides further information on the proposal as well as the draft planning application and consultation materials. The closing date for comment is **20 February 2024**.

Let us know your views

We want to hear your feedback on our proposal. You can send us your thoughts via any of the channels listed below:

-  Feedback forms are available at the public exhibition and online at www.treoesvalesolarfarm.co.uk. We will also post hard copies upon request.
-  Written feedback can be sent to info@treoesvalesolarfarm.co.uk
-  You can post your feedback to **FREEPOST PC CONSULTATION** (no stamp required)
-  Register your views or request a call back from the communications team by calling **07493 060539**
-  Register for project updates at www.treoesvalesolarfarm.co.uk

Scan the QR code to view the project website, consultation materials and provide feedback.
